## Update on ISO/IEC/IEEE CD2 24641: Systems and Software Engineering – Methods and Tools for Model-Based Systems and Software Engineering

# MBSSE Process Reference Model

## Four Process Groups

### Plan MBSSE

Define the scope and objectives of MBSSE

Plan model development and governance

Plan resources and assets

Manage knowledge reuse

### Perform MBSSE

Perform business and mission analysis

Perform functional analysis

Perform system structure design

Perform system analysis

Perform domain design integration

Perform system verification and validation

### Build Models

Produce system models

Verify models

Simulate systems using models

Produce discipline-specific models

Validate models

Evaluate alternative models

### Support Models

Manage technical quality

Manage technical configuration

Manage data and models

Share models for collaboration

### Process Description Structure

1. Title of the process
2. Purpose of the process
3. Inputs to produce outcomes
4. Process outcomes
5. Tasks to achieve the outcomes
6. Method and tool capabilities for performing tasks effectively and efficiently

# Major Changes from CD2

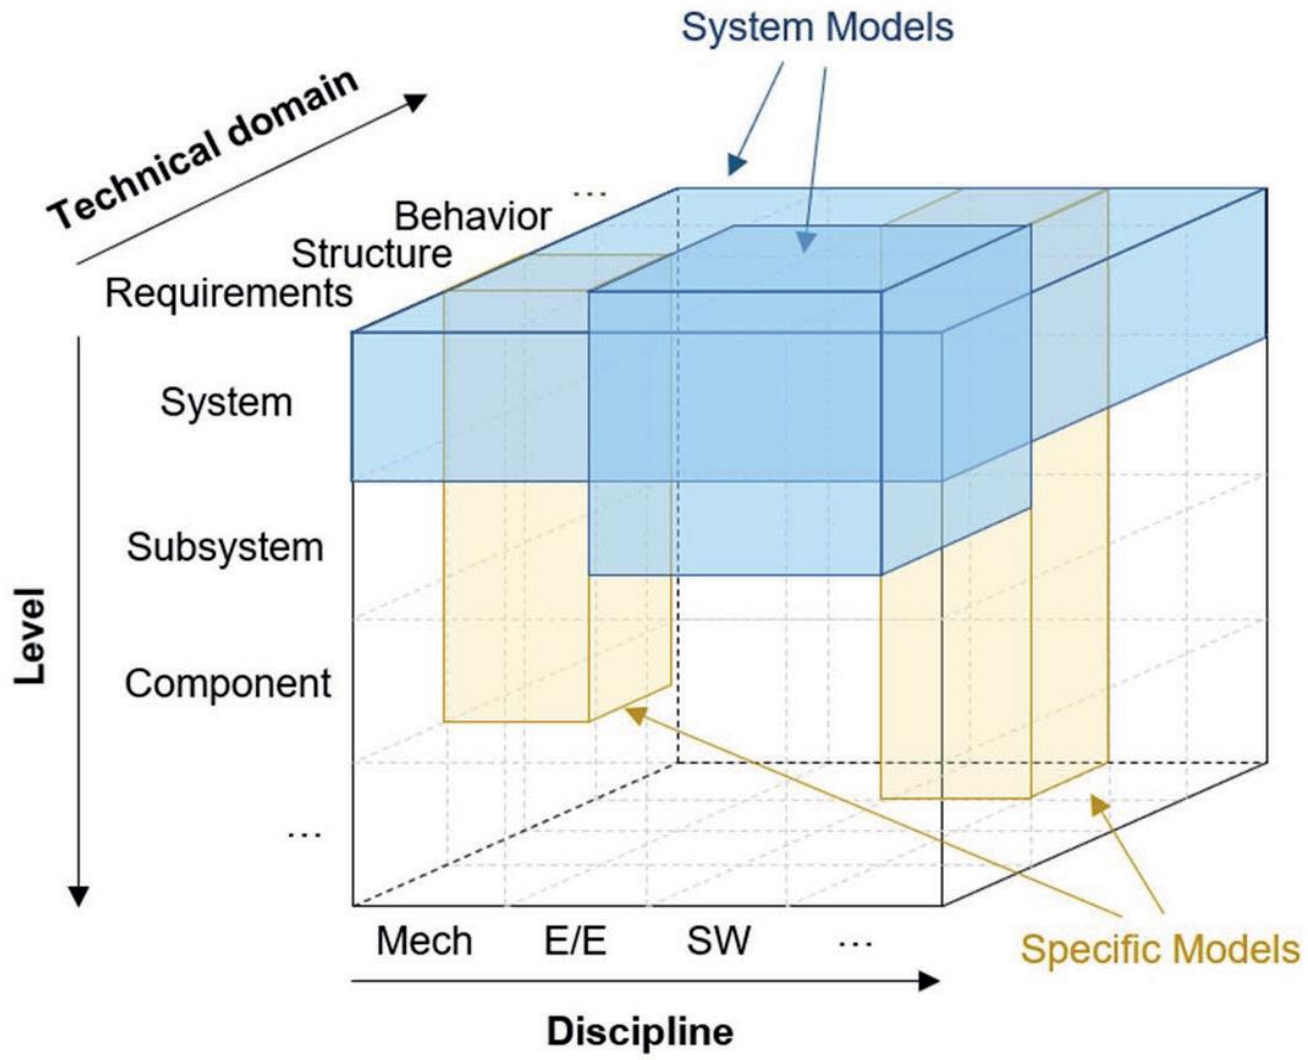

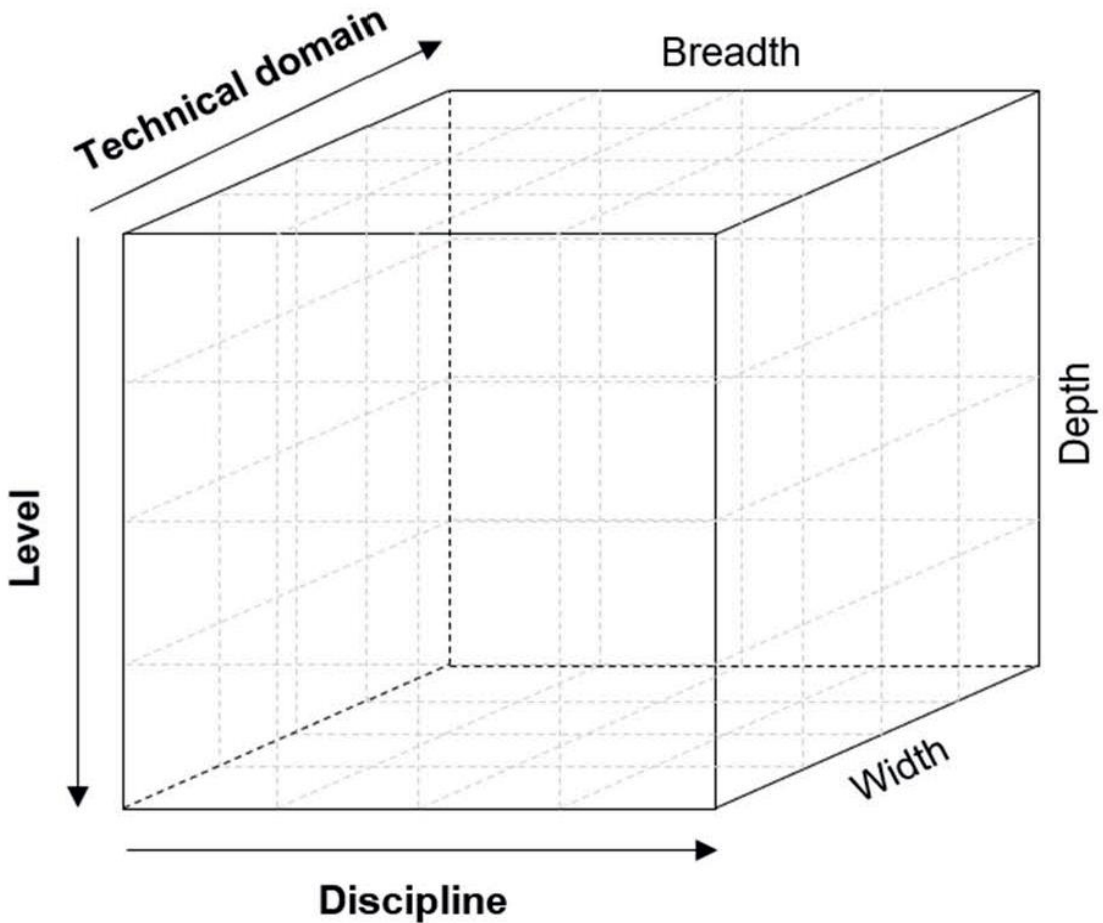

Section	Type	Title	Modification
5.1	Process	MBSSE Reference Framework	Moved to new Annex A and content greatly expanded
Annex A	(informative)	Example of MBSSE roles	Moved to Annex D
Annex B	(informative)	Relationships with ISO/IEC/IEEE 12207 and ISO/IEC/IEEE 15288	Removed
Annex C	(informative)	Relationship with other international standards and relevant frameworks, languages and systems	Moved to Annex E
Annex A	(informative)	Instantiation and customization of a MBSSE Reference Framework	Added, incorporates content from section 5.1
Annex B	(informative)	MBSSE – SYSTEM MODEL – DIMENSION	Added
Annex C	(informative)	MBSSE – MODELS – DEFINITIONS - RELATIONSHIPS	Added

# Annex A (informative) - Instantiation and customization of a MBSSE Reference Framework

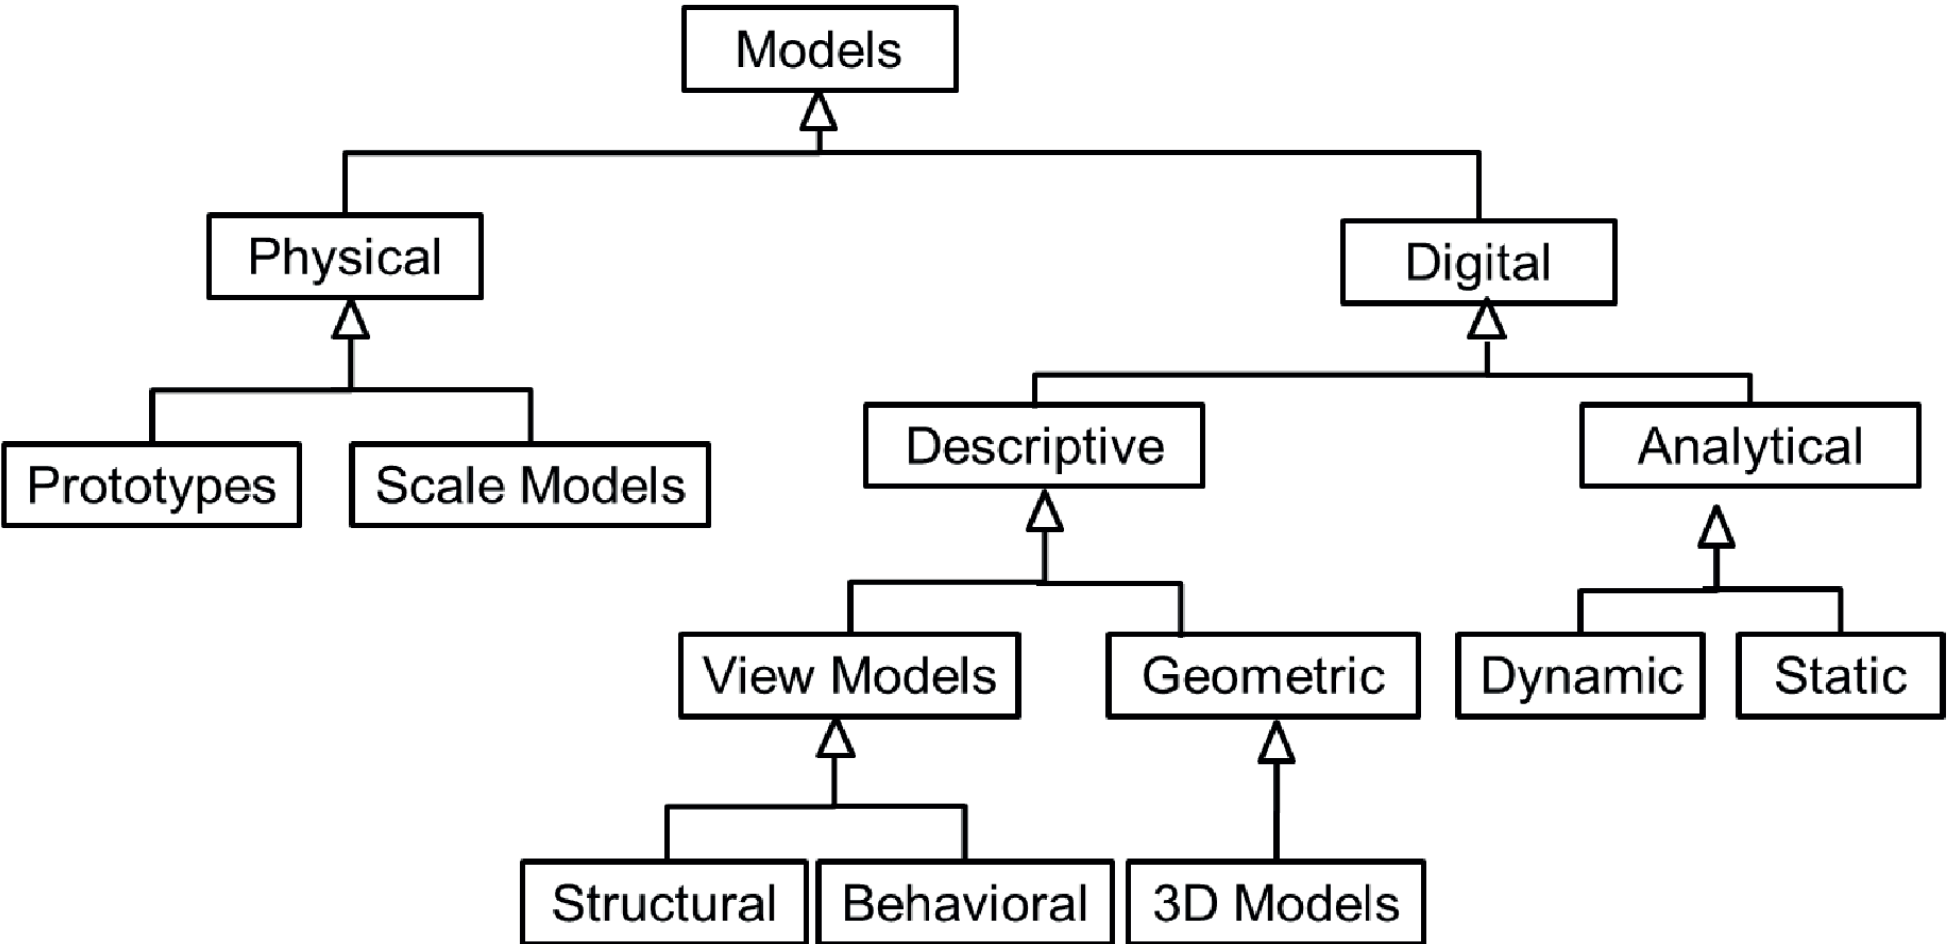

# Annex B (informative) - MBSSE – SYSTEM MODEL – DIMENSIONS

# Annex C (informative) - MODELS – DEFINITIONS – RELATIONSHIPS

Adapted from System Engineering Body of Knowledge (SEBoK) - Modeling definition
