Subject: mbse wiki issue

Hi Roger,

Last night and this morning, I have found that I can no longer upload documents to the mbse wiki pages for the Patterns Challenge Team.

The symptom seems to be that the file transfer process itself starts and never completes.

Perhaps this is some problem related to the hotel network, or otherwise, and I hesitate to report it without waiting a few days to see if it goes away in other circumstances. However, it would be helpful to be able to upload files during IW, and that ability seems to have stopped for me as of last night.

I was regularly (at least every few days) uploading files successfully, until last night.

Thanks for any suggestions you may be able to offer.

Bill
