INCOSE MBSE Patterns Working Group:

Part of two AIAA Digital Thread and Digital Twin reference model publication teams

• Based on formal configurable INCOSE MBSE model of the Innovation Ecosystem

Responses to the three questions:

See links for more

• Why?
   • In order to plan, analyze, and improve the (real and modeled) capabilities of the total Innovation Ecosystem, viewed formally as a system in its own right.

• Who?
   • From the largest multi-enterprise supply chains and consortia, to the smallest teams and individual projects—performing well and not so well.

• How?
   • As configurations of ~60 Stakeholder Features of the configurable model-based INCOSE Innovation Ecosystem Pattern (Link)
